THINK YOU NEED A BODYGUARD?

No? . . . But all the papers that must travel through the shop do! Forbes' heavy-duty Bodyguard is a low cost job envelope that keeps job tickets, parts lists, maintenance schedules, punch cards, and what-have-you from getting dirty and all mussed up.'

Look at the enclosed sample of the Bodyguard . . . you will like what you see -- and there's more than meets the eye:

Stronger -- Both front and back are made of extra-heavy 10 gauge Forbtran - the new virgin vinyl that is stiffer and more rugged! Electronically welded seams are as strong as Forbtran itself -- and that's mighty strong!

Smoother -- New smoother surface is really transparent (but still glare-free). . . dirt and grease wipe off quick and easy.

More useful -- there's a size to fit just about every need from punch card up to 9" x 12"-- all are in stock, ready for delivery. Special sizes or special features are also available.

Inexpensive -- Forbtran is as inexpensive as it is practical. This, plus efficiency in manufacture and in selling direct-to-you makes the BODYGUARD your best buy. . . especially when you figure the cost on a per use basis.

Let BODYGUARD protect your in-work cards and papers! How about sending in a trial order today? It will get our immediate and careful attention!

Sincerely,

Charles Forbes
